BIOL 1270, 1271, 1272

Majors/minors in science,
choose one sequence^d:

or

BIOL 1010, 1011, & (2010/2120) or
CHEM 1010, 1020, & 2131 or
PHYS 1111, 1112, 1113 or
PHYS 1211, 1212, 1213

honors advanced seminar

- Any one Advanced Seminar
(ASEM) course with Honors
attribute^b

distinction & GPA

- Earn distinction in one major,
per that department's standards
- 3.5+ cumulative GPA

notes & possible exceptions

a WRIT 1622/1733 may be waived if the student brings in transfer credit upon entering the program that the University determines will count for WRIT 1122/1133 respectively.

b If scheduling prevents meeting this requirement with an Honors course, student may propose an "H contract," designed in collaboration with the instructor of a "regular" section of AISC/SISC/ASEM. Requires approval from Program Director, Program Manager, and/or Honors Council.

c May substitute an extra Honors ASEM in place of two HNRS 2400

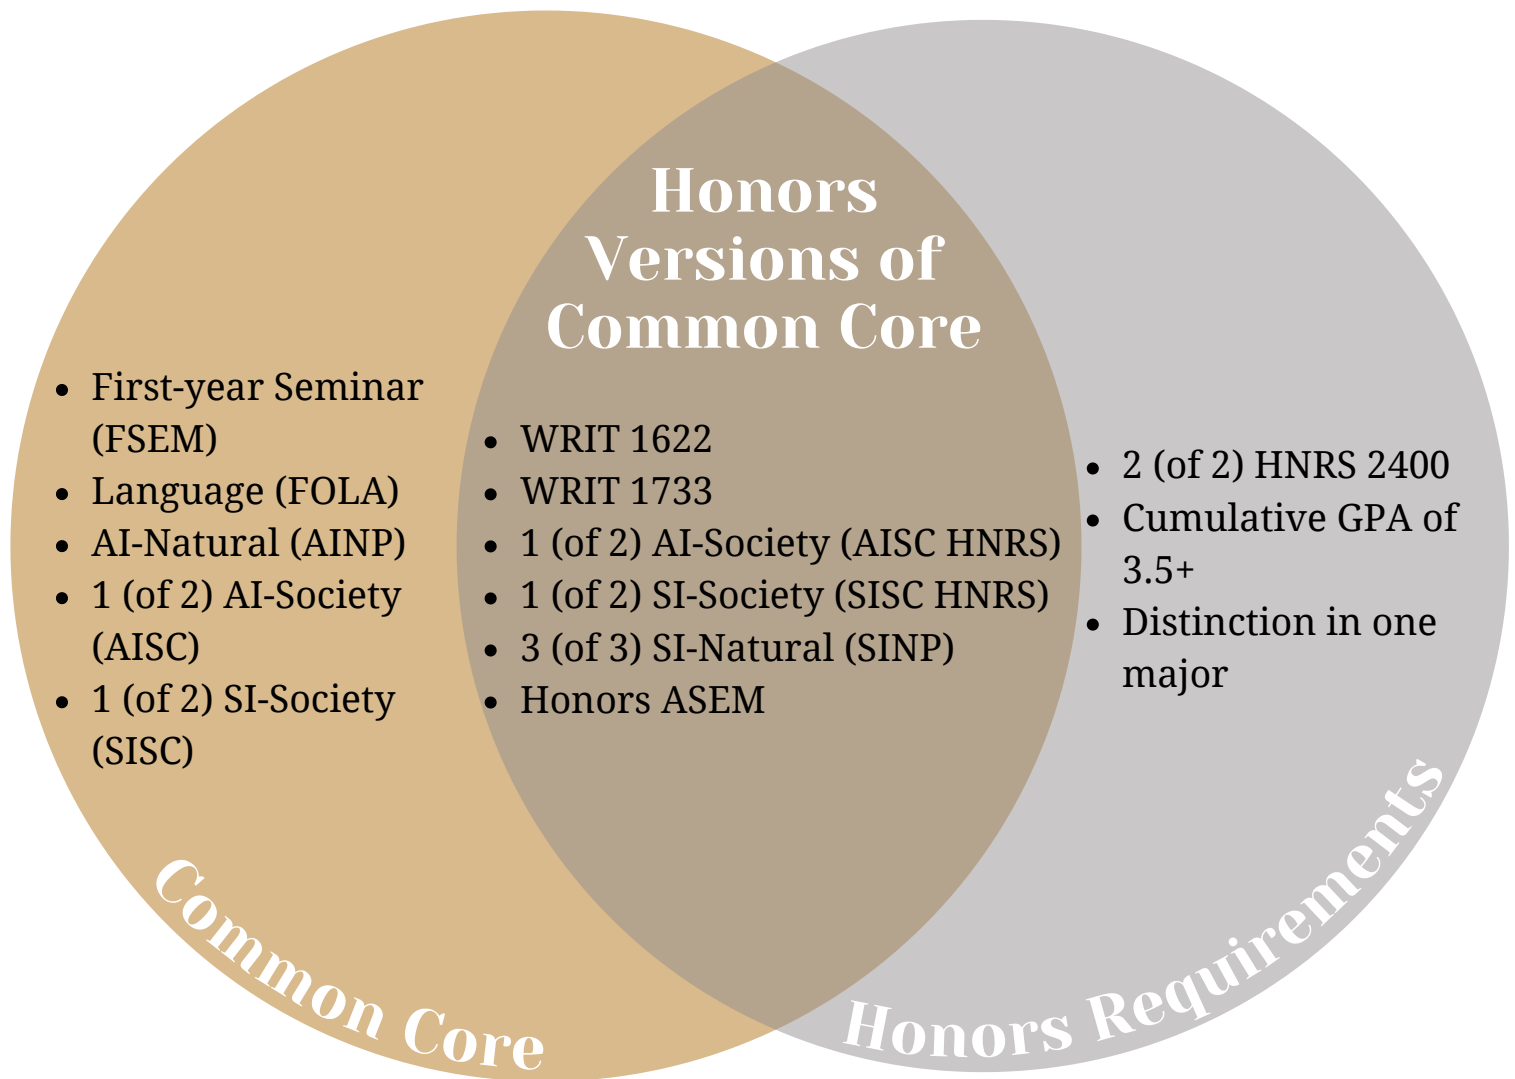

d If a student brings in transfer credit upon entering program and the University determines that those classes count towards SINP, they will apply towards the required 12 credits for Honors. Any remaining credits needed should be taken from one of the Honors-approved options listed here. If student's major exempts them from part of the SINP requirement, we will not require any additional SINP beyond what is required for the major.

honors + common core

Nearly all honors requirements can be completed as part of DU's Common Core and thus do not require any additional credit hours beyond what DU requires of all undergraduates. However, a couple of requirements are additional. Below you will see how honors requirements overlap with Common Core.

Earning departmental distinction is a requirement for honors, but the standards for distinction are individual to each department. Criteria, requirements, and/or application procedures vary by department.

Please contact a major advisor as soon as possible for details. Distinction verification form due by Week 7 of quarter of graduation.
