

Rising Second Year Students

New Major

Welcome Hours

Meet other students in your major, learn about opportunities offered by your department, and familiarize yourself with the advising processes in your major by attending New Major Welcome Hours. If you haven't yet declared a major, there's a session for exploratory students, as well, or you're welcome to attend any college session that you might be interested in! Please direct any questions to your Academic Advisor or to studentsuccess@du.edu.
