Names of Collaborators

Project Information

1. Project Title:
2. 3-5 Keywords
3. Please list the name (s) of the community partner organization(s)/group(s) involved in this project and a short description of their work.
4. In an effort to track the number of individuals affected by this work, please provide feedback on the number of participating

    Undergraduate students ___

    Graduate students ___

    Staff ___

    Faculty ___

    Community individuals ___

    Community partners (organizations or groups) ___

Project Outcomes

1. For projects, please include a brief abstract. For classes, please include the course name, prefix, number, and academic year and quarter.
2. List the scholarly products (e.g. articles, white papers, policy briefs, conference presentations) you have produced or will produce as a result of your work.
3. List the community products (e.g. presentations, op-eds, blogs/other public communications) you have produced or will produce as a result of your work.
4. Please share any links to websites, media mentions, or other online information about your project, if applicable.
5. List (name and amount) of any additional funding you have applied for and/or received for this project.
6. List (name and amount) any additional funding you have applied for and/or received.

7. Please attach a short article on your grant project for publication in our Public Good Impact blog. Please share the project goals, accomplishments, and tangible benefits to the community. You may include your students and/or community partner(s) as co-authors. Please include an article title and list the names of authors and their titles. The article should be around 500 words long.
8. Please upload any photos, collateral, or other products from your project.
9. Are there any other impacts that resulted from this funding, such as growing your partnership, seeding new projects, or other results? Is there anything else you'd like to share?
